PROFESSIONAL SUMMARY

Result-oriented **Junior Instructor** and **Full-Stack Web Developer** with a B.Sc. in Computer Science & Engineering. Over **1 year of experience** in technical instruction at **Sylhet Polytechnic Institute**, specializing in Programming, Web Technology, and Networking. Expert in building production-ready applications using the **MERN Stack, Next.js, and Node.js**. Proven ability to implement complex features like Role-Based Access Control (RBAC), Payment Gateways, and Data Visualization with interactive charts.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, Python

Frameworks: React.js, Next.js, Node.js, Express.js

UI & Tools: Tailwind CSS, Bootstrap, Firebase, Git

Database: MongoDB, Firebase Auth, Stripe API

PROFESSIONAL EXPERIENCE

Junior Instructor (Computer Science and Technology)

2025 - Present

Sylhet Polytechnic Institute, Sylhet

- Conducting theoretical and practical classes on Web Development, Programming and other core subjects.
- Designing curriculum-based assignments and evaluating examination scripts.
- Mentoring students on MERN stack projects and industry best practices.

EDUCATION

B.Sc. in Computer Science & Engineering

2019 - 2022

Bangladesh University

KEY PROJECTS

ClubSphere – Membership & Event Management System

MERN Stack, Stripe, Firebase

- **Role-Based Access Control (RBAC):** Developed a complex dashboard for **Admin, Manager, and Members** with private routes and specific CRUD permissions.
- **Secure Financial Integration:** Integrated **Stripe Payment Gateway** with automated success states, membership validation, and billing history.

- **Data Visualization:** Implemented a statistics section using **Charts** to visualize user growth, event attendance, and revenue data.
- **Modern UX/UI:** Designed with a professional dark/light mode interface, featuring skeletons/loaders for improved user experience during data fetching.

RentWheels – Production Ready Car Rental Platform

Next.js, Tailwind, Node.js, MongoDB

- **Full-Featured Dashboard:** Developed a role-based private dashboard with dynamic data tables and **interactive charts** (Recharts/Chart.js) for analytics.
- **Advanced Functionality:** Implemented multi-criteria filtering, real-time search, and pagination for seamless car discovery.
- **Production Standard UI:** Integrated **Light/Dark mode** with a consistent 3-color primary palette and fully responsive professional design.
- **Secure Operations:** Built private CRUD routes, secure authentication (Social & Email), and form validation with success/error feedback.
